VOLUME 76 · SUBJECT INDEX

Acanthamoeba spp, in contact lens wearers, possible environmental sources, **424**
Actinomycosis of the orbit: *case report*, **505**
Acyclovir
in herpes zoster ophthalmicus: *correspondence*, **639**
ointment, plus topical betamethasone or placebo, in first episode disciform keratitis, **711**
Adenoma, congenital, of the iris and ciliary body, light and electron microscopic observations: *case report*, **563**
Aerosols, causing eye injuries in children: *correspondence*, **703**
AIDS
and microsporidial keratoconjunctivitis: *case report*, **177**
and primary uveal B immunoblastic lymphoma: *case report*, **700**
Akinetic seizures, exacerbation by atropine eye drops: *case report*, **179**
Alice in Wonderland syndrome, as initial manifestation of Epstein-Barr virus infection: *case report*, **316**
Amaurosis fugax in young people, **660**
Amblyopia: *correspondence*, **126**
tobacco: *fifty years ago*, **261**
Amniotic band syndrome, with bilateral epibulbar choristoma: *case report*, **685**
Annexin V, in inhibition of intraocular fibrin formation, **450**
Anterior chamber implants, calculation of power, **303**
Anterior ischaemic optic neuropathy, haemorheological parameters, **142**
Anthrax of the eyelids: *case report*, **753**
Anti-CD4 monoclonal antibody, in prolongation of corneal graft survival, rat, **602**
Argon panretinal photocoagulation, lenticular burns following: *case report*, **630**
Argyrophilic nucleolar organiser region-associated proteins, counts in conjunctival malignant melanoma lack prognostic value, **621**
Aspirin and cataract: *editorial*, **257**
randomised double-blind placebo trial to prevent vascular events, **259**
Astigmatism, correction, assessment of surgical accuracy, **738**
Atopic dermatitis, and ulcerative blepharitis, role of *Candida*, **272**
Atrial myxoma, left, transient loss of peripheral vision as presentation: *case report*, **113**
Atropine eye drops, exacerbating akinetic seizures: *case report*, **179**
Autofluorescence of the crystalline lens, in early and late onset diabetes, **25**

Back-flush needle, modified, use in diabetic vitrectomies: *correspondence*, **191**
Basal linear deposit, macula, type IV collagen and laminin, **607**
Behçet's disease, activated T lymphocytes in retinal perivasculitis: *case report*, **499**
Behçet's syndrome, low dose cyclosporin A versus pulsed cyclophosphamide, **241**
Betamethasone
subconjunctival, effects on blood aqueous barrier following cataract surgery, **475**
topical, or placebo, and acyclovir ointment, in first episode disciform keratitis, **711**
'Black cornea', recurrent malignant melanoma of the corneal stroma: *case report*, **444**
Blindness
cause, Central African Republic: *correspondence*, **127**
sudden, in a child, presenting symptom of sphenoid sinus mucocele: *case report*, **502**
in temporal arteritis, treatable: *correspondence*, **63**
Blood aqueous barrier
continued breakdown following cataract surgery, **453**
following cataract surgery, effects of subconjunctival betamethasone, **475**
Blood cell flow, segmentation of fluorescence in retinal microcirculation as valid indicator: *correspondence*, **510**
Blood-ocular barrier permeability, monkeys, **84**
Blue filter, use in visual field analysis: *correspondence*, **447**
Bowman, Sir William, 1816-1892: *editorial*, **129**: *correspondence*, **639**
Broken intraocular lens during cataract surgery: *case report*, **509**
Bruch's membrane
change with age, **166**
macula, type IV collagen and laminin, **607**

Candida, and ulcerative blepharitis, in atopic patients, **272**
Capsular 'pits', in human lens: *case report*, **248**
Carotid lesions in retinal ischaemia, ultrasound morphology, **656**
Cataract(s)
anterior subcapsular plaque, in hyperornithinaemia gyrate atrophy: *case report*, **762**
and aspirin: *editorial*, **257**
and aspirin, randomised double-blind placebo trial to prevent vascular events, **259**
in children with uveitis: *editorial*, **66**
complicated, in juvenile chronic iridocyclitis, lensectomy, **72**
contrast sensitivity and glare, using Pelli-Robson chart, **719**
day case surgery, patients' attitudes, **262**
extraction
and anaesthesia, current practice, **323**
cystoid macular oedema following, in diabetes, **221**
extracapsular, and neuroleptanalgesia, **153**
sub-Tenon's infiltration, **670**
human mixed, nuclear brunescence, and posterior subcapsular, copper levels, **668**
lens epithelial cells, and IL-1 and prostaglandin E_2 synthesis, **338**
management: *editorial*, **321**
surgery
blood aqueous barrier following, effects of subconjunctival betamethasone, **475**
broken intraocular lens during: *case report*, **509**
continued breakdown of blood aqueous barrier following, **453**
and corneal endothelium changes, **32**
extracapsular, complicated, in pseudoexfoliation syndrome: *case report*, **692**
endophthalmitis following, 32 cases, **419**
in Fuchs' heterochromic iridocyclitis, **238**
ophthalmic pain following, local and general anaesthesia compared, **225**
third world: *correspondence*, **127**
unilateral, in prepresbyopic patients, diffractive multifocal intraocular lens implants, **336**
Cautery, for lower lid entropion, **532**
Cavernous haemangiomas, bilateral multiple, of the orbit: *case report*, **627**
Central African Republic, cause of blindness: *correspondence*, **127**
Central retinal artery occlusion, and Nettleship collaterals: *case report*, **186**
Central retinal vein occlusion, electro-oculogram, **515**
Chondrosarcoma, dedifferentiated, arising in the orbit: *case report*, **49**
Chorioretinal venous anastomosis, induced, in experimental retinal branch vein occlusion, **615**
Choriovitreal membrane, idiopathic: *case report*, **567**
Choristoma, bilateral epibulbar, and amniotic band syndrome: *case report*, **685**
Choroidal abscess, *Nocardia*, in chronic lymphocytic leukaemia: *case report*, **694**
Choroidal malignant melanoma, improved iodine-125 plaque design, **91**
Choroidal melanoma
immunoimaging, **457**
microwave plaque thermoradiotherapy, **358**
Ciliochoroidal detachment, delayed, following intraocular lens implantation: *correspondence*, **317**
Clostridium perfringens, causing metastatic endophthalmitis: *case report*, **252**
Collagen, type IV, and laminin, in Bruch's membrane and basal linear deposit in macula, **607**
Coloboma, bilateral macular, and pigmented paravenous retinochoroidal atrophy: *case report*, **250**
Colour Doppler ultrasound, cranial arteritis: *case report*, **690**
Colour vision abnormalities, detection in uncomplicated type 1 diabetes with angiographically normal retinas, **461**
Cone dystrophy
dominant, starting with blue cone involvement: *correspondence*, **127**
and fundus albipunctatus: *case report*, **375**
Confocal imaging of fundus, using scanning laser ophthalmoscope, **470**
Conjunctiva (conjunctival)
cells, immunofluorescence staining, **545**
inflammatory cells, phenotypes in sarcoidosis, **101**
malignant melanoma, AgNOR counts lack prognostic value, **621**
melanosis and melanoma, impression cytology, **198**
photodamage, in porphyria cutanea tarda, **592**
pigmented epithelial tumours, **294**
rhinosporidiosis, and scleral melting: *correspondence*, **191**
toxicity of subconjunctival gentamicin injection, role of preservatives, **235**
Conjunctivitis, cowpox virus causing: *correspondence*, **510**
Contact lenses
hard, periocular migration, **95**
rebound phenomenon, congenital nystagmus: *case report*, **497**
wearers, possible environmental sources of *Acanthamoeba* spp, **424**
Copper levels in human mixed, nuclear brunescence, and posterior subcapsular cataract, **668**
Cornea (corneal)
diameter, in premature infants, **292**
disease, coexistent with glaucoma, drainage surgery and/or subsequent keratoplasty, **146**

endothelium, modelling of changes after cataract surgery and penetrating keratoplasty, **32**
epithelium, diseased, fluorescein staining in vivo, dual appearance, non-contact photomicrographic study, **43**
foreign bodies, localisation, **741**
graft survival, prolongation by treatment with anti-CD4 monoclonal antibody, rat, **602**
stored by organ culture, endothelium survival following transplantation, **479**
stroma, recurrent malignant melanoma, 'black cornea': *case report*, **444**
transplantation, monoclonal antibodies: *editorial*, **577**
Correction, **128**, **320**
Corticosteroids, ophthalmic, pharmacokinetics: *mini review*, **681**
Cowpox virus causing conjunctivitis: *correspondence*, **510**
Cranial arteritis, colour Doppler ultrasound: *case report*, **690**
Cryotherapy, for retinopathy of prematurity, prospective study, **289**
Crystalline lens, in late onset diabetes, biometry, importance of diabetic type, **428**
Cup/disc ratio, optic nerve head, twin study, **218**
Cyclophosphamide, pulsed, versus low dose cyclosporin A, in Behçet's syndrome, **241**
Cyclosporin A, low dose, versus pulsed cyclophosphamide, in Behçet's syndrome, **241**
Cystoid macular oedema, following cataract extraction in diabetes, **221**
Cysts, epithelial, spontaneous congenital non-pigmented, of iris stroma, **39**

Dapsone therapy for acute inflammatory phase of ocular pemphigoid, **332**
Dark adaptation kinetics, abnormal, in autosomal dominant sector retinitis pigmentosa due to rod opsin mutation, **465**
Dark perimetric stimulus, **264**
Day-case
surgery, cataract, patients' attitudes, **262**
vitreoretinal surgery, prospects: *editorial*, **65**
see also Outpatient
Delleman syndrome: *case report and review*, **115**
Dermochondral corneal dystrophy (of François): *case report*, **760**
Dermofat grafts, to the extraconal orbital space, **408**
'Detached' rectus muscle: *editorial*, **130**
aetiology and management, **131**
Diabetes
and cystoid macular oedema following cataract extraction, **221**
early and late onset, and autofluorescence of the crystalline lens, **25**
late onset, biometry of crystalline lens, importance of diabetic type, **428**
and non-diabetes compared, for biological activities of vitreous gel, retrohyaloid fluid, and subretinal fluid, **79**
type 1, uncomplicated, colour vision abnormalities, **461**
Diabetic patients' laser card: *correspondence*, **317**
Diabetic radiation morbidity: *correspondence*, **61**
Diabetic retinopathy, course following cataract surgery in eyes previously treated by laser photocoagulation, **228**
Diabetic vitrectomies, use of modified back-flush needle: *correspondence*, **191**
Diffractive multifocal intraocular lens implants for unilateral cataracts in prepresbyopic patients, **336**
Disc edge veins of Kraupa, rare exit anomalies of the retinal vein: *case report*, **442**
Double elevator palsy, vertical transposition of horizontal recti (Knapp procedure), **734**
Dry eye syndrome, and precorneal tear film, **157**

Ectomesenchymoma, primary malignant, of orbit: *case report*, **438**
Editor, change of management: *editorial*, **385**
Electro-oculogram, in central retinal vein occlusion, **515**
Endophthalmitis
following extracapsular cataract surgery, 32 cases, **419**
metastatic, caused by *Clostridium perfringens*: *case report*, **252**
Serratia marcescens, pink hypopyon as sign: *case report*, **764**
Endoscopic visualisation of human nasolacrimal system, **663**
Endothelin, new vasoactive ocular peptide, **107**
Endothelium, long-term survival following transplantation of corneas stored by organ culture, **479**
Entropion, lower lid, cautery, **532**
Epstein-Barr virus infection, Alice in Wonderland syndrome as initial manifestation: *case report*, **316**
Esotropia, congenital, strabismus surgery, outcome, **342**
Eximer laser superficial keratectomy, use of masking agents, and hyperopic shift: *correspondence*, **62**
Experimental autoimmune uveoretinitis, RCS rat, influence of photoreceptor degeneration on disease expression, **553**
Extracapsular cataract extraction, and neuroleptanalgesia, **153**
Extracapsular cataract surgery, endophthalmitis following, 32 cases, **419**
Extraconal orbital space, dermofat grafts, **408**
Exudative retinal detachment, and posterior scleritis, associated with massive scleral thickening and calcification: *case report*, **109**
Eye injuries
among stone breakers: *fifty years ago*, **51**
children, caused by aerosols and sprays: *correspondence*, **703**
Eye movement tics: *case report*, **697**
Eye surgery, local anaesthesia: *editorial*, **705**
Eyedrops, contamination, inpatient, dispensing change recommendations, **36**
Eyelids
anthrax: *case report*, **753**
Kimura's disease, bilateral: *case report*, **755**

Felty's syndrome, and orbital lymphoma: *case report*, **173**
Fibrin formation, intraocular, inhibition with annexin V, **450**
Fibroblasts, migration to vitreous following retinal detachment and proliferative vitreoretinopathy, **159**
Fibronectin synthesis, in subretinal membranes of proliferative vitreoretinopathy, **486**
Finger blood flow, in low tension and primary open-angle glaucoma, **2**
First episode disciform keratitis, acyclovir ointment plus topical betamethasone or placebo, **711**
Fluorescein angiograms, installing database for retrieval: *correspondence*, **318**
Fluorescein staining, in vivo, of diseased human corneal epithelium, dual appearance, non-contact photomicrographic study, **43**
Fluorescence segmentation in retinal microcirculation, valid indicator of blood cell flow: *correspondence*, **510**
Fluphenazine induced welding arc maculopathy: *correspondence*, **255**
Foreign bodies, corneal, localisation, **741**
Foster-Kennedy syndrome, pituitary adenoma presenting as: *case report*, **117**
Foveal photopigment kinetics, and myotonic dystrophy, **594**
Fuchs' heterochromic iridocyclitis, cataract surgery, **238**
Fuchs' heterochromic uveitis, is there a genetic basis, discordance in monozygotic twins, **22**
Full thickness macular breaks, in rhegmatogenous retinal detachment with peripheral retinal breaks, **346**
Fundus albipunctatus, and cone dystrophy: *case report*, **375**

Gas tamponade, for retinal tears: *correspondence*, **383**
Gaze, retrobulbar injection for orbital MRI, **728**
Gentamicin
subconjunctival injection, conjunctival toxicity, role of preservatives, **235**
and topical ofloxacin compared, in external ocular infection, **714**
Giant cell arteritis, haemorheological parameters, **142**
Glaucoma
ciliary block, after cataract extraction, laser treatment, **569**
coexistent with corneal disease, drainage surgery and/or subsequent keratoplasty, **146**
early onset chronic angle closure, and progressive myopia: *case report*, **758**
low tension
place in modern practice: *mini review*, **494**
vascular factor, alchemists' gold? *editorial*, **1**
low tension and primary open-angle, finger blood flow, **2**
patients undergoing cataract extraction with posterior chamber lens implant, prevention of acute postoperative pressure rises, **534**
pattern electroretinogram, **387**
'Guarded anterior fistula' operation, modification of trabeculectomy to avoid postoperative hyphaema, **353**

Haemangiomas, cavernous, bilateral multiple, of the orbit: *case report*, **627**
Haemorheological parameters, in retinal artery occlusion and anterior ischaemic optic neuropathy, **142**
Heavy liquids, for postoperative tamponade: *editorial*, **513**
Herpes simplex virus in the eye: *mini review*, **365**
Herpes simplex virus infection, through the eye, non-traumatic acquisition, **412**
Herpes zoster ophthalmicus, acyclovir: *correspondence*, **639**
Herpetic keratitis in Tanzania, association with malaria, **582**
Horner's syndrome, electron microscopy of human iris, **746**
Human corneal endothelial cells, cell adhesion molecules, in situ immunohistochemical analysis, **205**
Hyaloidotomy and laser treatment of ciliary block glaucoma after cataract extraction, **569**
Hyperopic shift, and use of masking agents in excimer laser superficial keratectomy: *correspondence*, **62**
Hyperornithinaemia gyrate atrophy, and anterior subcapsular plaque cataract: *case report*, **762**
Hyperoxaluria type I, primary, ocular involvement, clinicopathological study: *case report*, **54**
Hypertension, spontaneous subconjunctival haemorrhage as sign?, **297**

Impression cytology, of conjunctival melanosis and melanoma, **198**
Inflammatory eye disease, and sarcoidosis: *editorial*, **193**
Interleukin-1, and prostaglandin E_2, synthesis by lens epithelial cells of human cataracts, **338**
Intraocular lens
implantation, delayed ciliochoroidal detachment following: *correspondence*, **317**
periocular migration: *case report*, **688**
Intraocular pressure variations, diurnal, analysis of 690 diurnal curves, **280**
Intraocular squamous cell carcinoma, resection: *case report*, **123**

Intravenous sedation for ocular surgery under local anaesthesia, **598**
Investigative ophthalmology, forthcoming review articles: *editorial*, **449**
Iodine-125 plaque design, improved, in choroidal malignant melanoma, **91**
Iridocyclitis, juvenile chronic, lensectomy for complicated cataract, **72**
Iridotomy, Nd:YAG laser area, effect of pupil dilatation, **678**
Iris stroma, spontaneous congenital non-pigmented epithelial cysts, **39**

Juvenile chronic iridocyclitis, lensectomy for complicated cataract, **72**

Keratitis
fungal, *Pseudallescheria boydii* causing, treatment failure: *case report*, **367**
herpetic, in Tanzania, association with malaria, **582**
in Reiter's syndrome: *correspondence*, **126**
Keratoconjunctivitis
associated with tuberculosis: *case report*, **175**
microsporidial, and AIDS: *case report*, **177**
Keratoconus
life expectancy, **590**
penetrating keratoplasty: *correspondence*, **61**
Keratoplasty
deep lamellar, on air, with lyophilised tissue, **646**
penetrating, for keratoconus
myopia following, **642**
pseudoexfoliation following, **98**
Keratotomy, radial, review of 300 cases, **586**
Kimura's disease of the eyelids, bilateral: *case report*, **755**
Knapp procedure, for double elevator palsy, **734**

Laboratory sciences, forthcoming review articles: *editorial*, **449**
Lacrimal gland
myoepithelioma, with spindle cell morphology: *case report*, **634**
pleomorphic adenoma, **395**
primary malignant neoplasms, **401**
Lacrimal lesions and orbital surgeons: *editorial*, **386**
Laminin, in Bruch's membrane and basal linear deposit in macula, **607**
Laser card, diabetic patients: *correspondence*, **317**
Laser and hyaloidotomy treatment of ciliary block glaucoma after cataract extraction, **569**
Laser iridotomies, sequential argon-Yag, in dark irides, **329**
Laser photocoagulation
cataract surgery, and course of diabetic retinopathy, **228**
of pigment epithelial detachments, elderly, controlled trial, 4 year review, **5**
Laser trabeculoplasty: *mini review*, **624**
Leber's optic neuropathy, late onset, case confused with ischaemic optic neuropathy: *case report*, **571**
Lens
epithelial cells of human cataracts, and IL-1 and prostaglandin E_2 synthesis, **338**
human, capsular 'pits': *case report*, **248**
implant, treated with YAG laser capsulotomy and anterior hyaloidotomy, treatment of ciliary block glaucoma, **569**
implants, polymacon and poly(methyl methacrylate) compared, **88**
intraocular, periocular migration: *case report*, **688**
monofocal intraocular, optimal postoperative refraction for good unaided near and distance vision, **300**
nucleus dislocation, during phakoemulsification, perfluorocarbon heavy liquids: *case report*, **169**
Lensectomy, for complicated cataract in juvenile chronic iridocyclitis, **72**
Lenticular burns following argon panretinal photocoagulation: *case report*, **630**
Leprosy, ocular: *correspondence*, **447**
continuing challenge: *correspondence*, **254**
Leucocyte-endothelial cell interactions, immunohistochemical analysis, **205**
Leukaemia
childhood, ophthalmic manifestations: *editorial*, **641**
prognostic importance, **651**
chronic lymphocytic, and *Nocardia* choroidal abscess: *case report*, **694**
Levodopa and melanoma: *case report*, **246**
Lid melanoma, and parkinsonism: *case report*, **246**
Life expectancy in keratoconus, **590**
Linear naevus syndrome, and pseudopapilloedema: *case report*, **372**
Lipoproteins, serum, and topical timolol: *correspondence*, **191**
Local anaesthesia, for eye surgery: *editorial*, **705**
new technique for cataract extraction, one quadrant sub-Tenon's infiltration, **670**
Lower lid entropion, cautery, **532**
Lyme borreliosis, and intermediate uveitis: *case report*, **181**
Lymphoma
orbital, in Felty's syndrome: *case report*, **173**
primary uveal B immunoblastic, in AIDS: *case report*, **700**
Lymphoproliferative disorders, orbital, **47**

Macula, type IV collagen and laminin in Bruch's membrane and basal linear deposit, **607**
Macular drusen, age related, primate model, **11**
Malaria, and herpetic keratitis, Tanzania, **582**
Malignant melanoma, optic nerve head, in oculodermal melanocytosis: *case report*, **313**
Malignant neoplasms, primary, lacrimal gland, **401**
Melanoma
choroidal
immunoimaging, **457**
microwave plaque thermoradiotherapy, **358**
conjunctival
impression cytology, **198**
nasal and orbital recurrence 21 years after exenteration: *case report*, **369**
conjunctival malignant, AgNOR counts lack prognostic value, **621**
lid, and parkinsonism: *case report*, **246**
malignant, recurrent, of corneal stroma, 'black cornea': *case report*, **444**
multifocal amelanotic conjunctival, and acquired melanosis sine pigmento, **163**
Melanosis, premalignant, of conjunctiva and cornea, in xeroderma pigmentosum: *case report*, **120**
Melanosis sine pigmento, acquired, and multifocal amelanotic conjunctival melanoma, **163**
Microsporidial keratoconjunctivitis, and AIDS: *case report*, **177**
Microwave plaque thermoradiotherapy, for choroidal melanoma, **358**
Migraine, complicated, resulting in blindness due to bilateral retinal infarction: *case report*, **189**
Mitochondrial myopathy, and vitelliform macular degeneration: *case report*, **58**
Monoclonal antibodies in corneal transplantation: *editorial*, **577**
Monofocal intraocular lenses, optimal postoperative refraction for good unaided near and distance vision, **300**
Mucocele, sphenoid sinus, sudden blindness in child as presenting symptom: *case report*, **502**
Multifocal amelanotic conjunctival melanoma, and acquired melanosis sine pigmento, **163**
Mydriasis, bilateral congenital: *case report*, **632**
Myoepithelioma of the lacrimal gland, with spindle cell morphology: *case report*, **634**
Myofibroblasts cause chronic vitreoretinal traction, **550**
Myopia
following penetrating keratoplasty for keratoconus, **642**
progressive, in early onset chronic angle closure glaucoma: *case report*, **758**
Myotonic dystrophy, and foveal photopigment kinetics, **594**
Myxoma, left atrial, transient loss of peripheral vision as presentation: *case report*, **113**

Nasolacrimal duct, neurilemmoma encroaching upon, **750**
Nasolacrimal system, human, endoscopic visualisation, **663**
Nd:YAG laser iridotomy area, photometry of effect of pupil dilatation, **678**
Necrobiosis lipoidica, periorbital: *case report*, **52**: *correspondence*, **511**
Nettleship collaterals, circumpapillary cilioretinal anastomoses after occlusion of central retinal artery: *case report*, **186**
Neurilemmoma of anterior ethmoidal nerve, encroaching upon nasolacrimal duct, **750**
Neurofibromatosis type 2, and bilateral optic nerve sheath meningiomas: *case report*, **310**
Neuroleptanalgesia, and extracapsular cataract extraction, **153**
Neuropathy, optic, traumatic, management, **349**
Nocardia choroidal abscess in chronic lymphocytic leukaemia: *case report*, **694**
Non-pigmented epithelial cysts, spontaneous congenital, of iris stroma, **39**
Norrie's disease, prenatal exclusion, **491**
Notes, **64**, **128**, **192**, **256**, **320**, **384**, **448**, **512**, **640**, **704**, **768**
Nystagmus
congenital, rebound phenomenon following removal of contact lenses: *case report*, **497**
in infancy: *mini review*, **434**
